HISTORY

One balmy September morning in 1936 thirteen green freshman walked into the Ogden Community High School. They were; Leon Baxter, Clifford Behrens, Mary Jane Berkely, Jane Boyd, Charles Curtis, Ralph Denhart, Marianna Harper, Max Harry, Raymond Hodges, Buren Jordan, Stanley Wallace and Catherine Wright. These freshman put on a show for a few weeks with their dumbness in not knowing where to go or what to do after they got there. Other than that, everything proceeded smoothly during that year.

At the beginning of the Sophomore year Stanley Wallace come up missing and along came Lowell Calclasure to take his place. Soon after that Paul Miller joined the class. Since there were not many girls to take foods that year, some of the boys also took foods to make a full class. Catherine Wright finished the Sophomore year, but before she could get back the Junior year someone offered her a marriage license; she and Leland Mitchell were married that summer.

At the beginning of the Junior year Robert Britt joined our ranks. Everything went smoothly during that year, with the class play and also with the Junior-Senior Banquet. We had an enjoyable time.

At the beginning of the Senior year Junior Richards joined us from Urbana.

Our Senior Year, in many ways the best of the four, has served merely as a stepping-stone to another phase of education.

SENIOR CLASS PROPHECY

LADIES AND GENTLEMEN. This is your "Ogden Televised News reporter, Buren Jordan, talking to you from the great Ogden air terminal on the south edge of Ogden, Illinois. This June day in the year 1961 will be a memorable day in the lives of fourteen seniors of the class of 1941 and their class advisor, Miss Railsback. The world's greatest airway excursion trip will be underway in just a few minutes. This trip is for the purpose of finding out the location of the class members. Some of these will not be hard to find.

Paul Miller, the great physicist, is going on this trip to test his new Photo-Phone, which he invented in 1948, just two years after he was graduated from the U. of I in 1946. Charles Curtis is the pilot of the stratoliner which is to take us on this trip. That lovely stewardess who is giving so much attention to the comforts of the passengers on board the plane is none other than Marianna Harper. All the boys in school thought that she was pretty "snazzy" when she was a senior in school. The ship is now taking off toward the U. of I. where Miss Railsback is teaching English to those who will be teaching our children in high school. Over in the west section of the town of Champaign is a very modern building which is the beauty school operated by Jane Boyd. We understand that she is doing a very profitable business at her life calling.

As we travel westward we see a large campus of buildings which looks like a college but is the County Hospital for un-fortunate children. Mary Jane Berkley is doing very well at playing head nurse in this great hospital. We are now getting into the western part of the U. S. Here are many ranches which supply the cities of our nation. That large ranch just below

us is the Richards-Britt ranch for raising hogs. So great is the extent of their ranch that one can stand in the middle of the ranch and not be able to see any of its boundaries. As we cross the Rocky Mountains, we see the mountain beacon for guiding the night planes through the mountains. This particular beacon is tended by Raymond Hodges. He is living in the station with his wife and family. His wife is the former Joanna Fiscus, who was his schoolday sweetheart. This beacon takes the place of the railroad signals that Raymond used to tend. As we near the city of Denver, we see a tall tower which is now considered a landmark for pilots. It is nothing more than a tower which marks the nightclub owned and operated by Max Harry. Even in high school he had experience in handing out drinks over a bar.

Now we near the city of San Francisco. Over to one side we see a blaze of lights. As we swoop lower we see a boxing match in progress. It is Clifford Behrens fighting for the middleweight crown. He always did like to fight as a record of his high school days will show. We circle back from the west and fly over the salt flats of the Great Salt Lake of Utah. What is that tiny speck moving at such a great speed on the beach? It is Wayne Denhart testing his racer. He hopes to go at least 450 miles per hour and maybe faster. If he does so, he will break the world's record. He races as a side-line. His real work is testing cars for the General Motors Company. It seems that we have not accounted for all the members of the class of 1941.

There is Leon Baxter yet to locate. Perhaps we can find him in the eastern part of the country. In about two hours we shall reach Maine. I have rumors that he was operating one of the largest farms in the New England States. Time flys so

fast on the trip that it seems no time at all, until we have reached Leon's farm. Sure enough there is Leon down there in a control room from which he operates his farm machinery. He always was one to find some way of making work easier. But our time is about up and we must return to Ogden. It seems that it has been a very successful trip for all who were concerned.

But wait! We are about to forget our classmate, Ralph Denhart. You remember that he was the captain of our basketball team both his Junior and Senior years. At present he is managing the Chicago Bruin's professional basketball team. He seems to be doing well, too, as his team won the National Professional title this year. And now that we have accounted for everyone, it is time for me to get back to the office and get this to the press.

The Ogden Basketball team of 1940-41 will be remembered by the people and students as a team which went out to win each game. The boys fought hard and by looking at the score it can be seen that they lost only eight games and won twenty-two, a record that is exceedingly good considering the fact that the tallest man on the barely touches the six foot mark.

The team played in four tournaments and did exceptionly well in all of them. In the Oakwood Invitational Tournament they defeated Oakwood and St. Joseph to win the tournament and a beautiful trophy.

In the County Tournament Ogden sufferred a little tough luck and was beaten in the second game by Sadorus. Things went a little better however in the District Tournament. The team was beaten by Homer in the finals of that tournament. However by winning second place they advanced on into the Regional. In this tournament they were eliminated by Urbana in a close victory.

Urbana went on to take second place in the State. The fact that Urbana beat Ogden by only four points makes the Ogden team look pretty good, doesn't it?

The Ogden Softballers enjoyed an almost perfect season this year, winning four and losing only one game. The team played brilliant ball and displayed excelent sportsmanship and teamwork.

We're hoping that they can keep up the good work and win many more for "Dear Old OCHS." Don't fail us, boys!

SENIOR CLASS WILL

We, the members of the class of nineteen hundred forty-one, having completed four years in Ogden High School and being very brilliant, do make, ordain, publish, and declare this to be our last will and testament. Of our worldly possessions we leave to the Junior Class our ability to find excuses for getting out of school, to cooperate in getting our lessons, and to talk the teachers out of other lessons.

We, the Senior Class hereby appoint Miss Fern Railsback as executrix of our last will and testament, in consideration of her faithfulness and patience with us for the last two years.

I, Paul Miller, hereby bequeath my ability to get into mischief and out of it again to Harriet Agnew.

I, Max Harry, hereby bequeath my waistline to Shorty Meese so he won't be mistaken for a steam pipe around school anymore.

To Juanita Denhart, I, Jane Boyd, bequeath my ability to tell jokes.

I, Ralph Denhart, leave my speed to Ben Bradley in the hope that he will be able to play basketball next year.

To John "Romeo" McMahon, I, Leon Baxter, leave my one and only ability, that of dating good looking girls.

I, Robert Britt, leave my ability to play checkers to the one and only "Gabby" Price.

I, Raymond Hodges, bequeath my ability to be suspended from school and thus get an extra vacation to all boys in the Junior Class.

I, Marianna Harper, leave my ability to dance and jitterbug to Bonnie Wilfong.

To my friend, June Baker, I, Mary Jane Berkley, leave my best ability to sass the teachers.

I, Charles Curtis, leave my ability to attract the women to Lowell Anderson. As he seems to be doing pretty well lately, maybe he won't need it, so he may pass it on to anyone who does.

I, Junior Richards, leave my ability to foul out of basketball games to James Bensyl.

I, Wayne Denhart, leave my ability to cuss and discuss various things to Donald Peters.

I, Buren Jordan, bequeath my ability to stand up and make myself known to bashful Helena Freese.

I, Clifford Behrens, leave my outstanding talent at getting into fights and having automobile wrecks to Irish Mapes.

We, the Senior Class of 1941 do set our hand and seal to this document on this day, the 27 day of the month of May in the year of our Lord one thousand, nine hundred and forty-one.

FUTURE FARMERS OF AMERICA

The Ogden Chapter of the F.F.A. was first organized last September at a meeting called by Mr. Bantz. The following officers were chosen.

President----------Leon Baxter
Vice President----------John McMahon
Secretary----------Ralph Denhart
Treasurer----------Robert Britt
Reporter----------Wayne Denhart

On September 20-21 the president and secretary attended an officers' training school at Springfield. A corn husking contest was held October 16, Leon Baxter taking first place with an average of thirteen bushels for forty minutes. Leon then competed in the District Contest at Catlin. Fourteen students attended the International Livestock show at Chicago in December.

February 24 a sectional ping-pong and checker tournament was held for section thirteen, at Ogden. Robert Britt placed second in the checker tournament; Junior Richards and Ben Bradley took first in the doubles of ping-pong.

A father-and-son banquet was held the latter part of April. Mr. Bantz has taken the boys on a number of field trips this year and is planning a number more of interest for next year. He hopes to have an increase in the enrollment of agriculture next year. Happy Farming Boys!!

The Home Economics Club had the honor of sending Helen Denhart and Joanna Fiscus to the Home Ec State Convention in Springfield. They were the two representatives from our Ogden High School. There were approximately five-hundred girls at this convention.

Seventeen girls from Ogden High were present at the District III Home Ec Rally day meet at Atwood. There was registration in the morning and a speech by the state club sponsor, community singing, two skits about Home Economics, discussion groups, a talk, "Globetrotting," by a guest speaker, and a quizz program. There were five-hundred and fifty present.

HOME ECONOMICS DEPARTMENT'S MOTHER'S DAY TEA

The Home Economic's Department gave a style show and tea Wednesday, May 7, for the mothers of all the high school students in honor of Mother's Day.

A garden scene was the stage setting for the clothing girls who modeled their dresses in the fashion show. The same spring theme was carried out in pink and green table decorations with a miniature garden for the centerpiece.

Several girls from the music department furnished music for the program. Mary Ella Mapes and Marion Agnew each sang; Erma May Helton played a flute solo; and Wanda Boyd played a piano solo.
